Summary

A 17-year-old **MERN stack developer** with a strong passion for real problem-solving and deep dives into technology. Fascinated by tech since a young age, I began my coding journey in December 2024 and am currently balancing college life with continuous learning and practical application of new technologies. I am a highly motivated and disciplined individual, eager to contribute and grow in a dynamic development environment.

Skills

- **Frontend:** React, HTML5, CSS3, Tailwind CSS, DaisyUI, React Router, Framer Motion
- **Backend:** Node.js, Express.js
- **Database:** MongoDB
- **Tools & Platforms:** Git, GitHub, Firebase, Vercel (Deployment)
- **Concepts:** RESTful APIs, MERN Stack Development, User Authentication

Projects

Jaitam Car Rental

- **Category:** Full-stack
- **Technologies:** React, Node.js, Express.js, MongoDB, Tailwind CSS
- **Description:** A comprehensive single-page web application for car rentals, enabling users to browse a catalog, view detailed car information, and securely book vehicles. Features intelligent availability display, user-driven car listings, and protected APIs for managing user-added cars.
- **Live Link:** jaitam-app.web.app

- **GitHub (Client):** github.com/Marwan90679/jaitam-client
- **GitHub (Backend):** github.com/Marwan90679/jaitam-backend

Green Commandos

- **Category:** Full-stack
- **Technologies:** React, Node.js, Express.js, MongoDB, Tailwind CSS, React Router DOM
- **Description:** A MERN stack web application fostering community-driven green initiatives. Provides a responsive UI for user authentication, event listings, and volunteer opportunities. Users can post/join events and manage gardening tips via a dashboard displaying personal and community statistics.
- **Live Link:** green-commandos.web.app
- **GitHub (Client):** github.com/Marwan90679/green-comm-client
- **GitHub (Backend):** github.com/Marwan90679/green-comm-backend

Huntly Job Portal

- **Category:** Front-end
- **Technologies:** React, Tailwind CSS, React Router
- **Description:** A modern, front-end job search platform designed to help job seekers find opportunities primarily in local startups and businesses. It aims to simplify the job hunting process through a sleek, highly responsive, and user-friendly interface. The platform features frequently updated job listings and an animated user experience to enhance engagement.
